

ROCKFORD MANUFACTURING GROUP INC.
FASTENER ENGINEERS • LEWIS MACHINE™

Our customers define the capacity of our machines. We don't subscribe to the "one size fits all". We listen to our customers needs and then provide the perfect solution!

RMG Model 16

Our diverse line of straighten and cut machines exceed your requirements. Whether you are cutting 0.75 mm or 25mm diameter in low carbon or nickel alloy. We have the right machine for your application.

Cut lengths range from as short as 16mm or up to 12 meters? Our RMG and Lewis Machine product lines are built for your application.

Factory OEM Parts & Tooling for your RMG, Lewis Machine and G.C. Patterson Equipment
